Enhancing Competences on International Trade Law Practice Under WTO

Course Overview:

International business becomes increasingly under the influence of a growing body of international law. These set the framework for international trade, and competition in trade, to remove unnecessary barriers. The World Trade Organisation (WTO) has been at the forefront of establishing global trading practices, but other multi-lateral and bilateral agreements need to be a focal consideration. This course introduces this legal framework for the non-specialist.

Course Objectives:

At the end of this course, the participants will be able to:

- Cover the aims and intentions of international agreements under The World Trade Organisation
- Know the practical implications for businesses trading internationally
- Review of applicable legislation
- Recognize the current bilateral and multinational agreements
- Understand the WTO legal system
- Review WTO Obligations and Commitments
- Study the WTO's dispute settlement, monitoring and enforcement system
- Have an awareness of the basis of International Law
- Understand the principles of economic trade and development
- Learn key learning points for application in their organization
