## **Application of MS Office Project in Public Sector Projects Management**

### **Course Overview**

This course will help you to set up a Project Management Office (PMO) that adds value to your organization's ability to deliver new initiatives and realize benefits from these endeavours. You will learn how to maximize the effectiveness of your PMO and provide optimum support to project managers, as well as provide sound governance for senior stakeholders, such as project sponsors.

During the course, you will have the opportunity to raise challenges from your organization and discuss these with the facilitator and your fellow course members, to gain innovative suggestions of how to apply good practices in such areas as project integration, scope, schedule, quality, cost, communications, human resource, risk, procurement and stakeholder management. You will also gain insight into portfolio management and prioritizing project resources.

### **Course Objectives:**

At the end of this course, the participants will be able to:

- Enhance project performance by using contemporary tools and techniques.
- Assess the best-fit structure for your Project Management Office (PMO), taking into account the operating environment.
- Describe how to create an effective PMO and identify the key milestones for the journey.
- Use continuous improvement and LEAN techniques to drive your PMO forwards and sustain an organization-wide approach.
- Relate organizational strategy to project framework
- Develop a business case that outlines the Project Management Office (PMO) challenges and opportunities
- Evaluate and increase the project maturity level of the organization
- Create the PMO charter and implement the relevant strategy phases
- Establish a project management methodology and governance
- Assemble the PMO team and establish performance measurements
- Discover the consulting role of PMO in knowledge management
